

In this particular global context of the health crisis COVID-19, we hope that you, your team and your families are doing well.

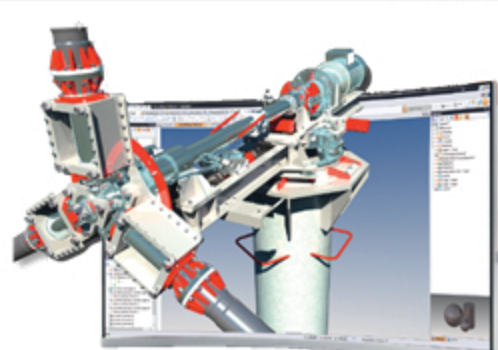

Despite the difficulties we all face, TOPSOLID makes every necessary effort to support and provide the best service to you and your end users.

TOPSOLID does not stop, and our customers as well as the industry will need us more than ever.

Notwithstanding this particular context, we have good news:

THE NEW VERSION IS AVAILABLE!

#ZOOM SOFTWARE

TOPSOLID SAS announces the release of the new version of TopSolid 2020 (v7.14).

#ZOOM INDUSTRY 4.0 "INFORMATIONS ENTREPRISE" MAGAZINE

Industry 4.0 is now all the news, and players in the sector are focusing their entire attention on the quest for communications and technical data management solutions. Competition on the global CAD-CAM market has heated up, with some major mergers between service providers in recent years. We spoke to Richard Lamure, the director of TopSolid, one of the world's leading publishers of CAD-CAM/ERP software, to try and understand this broad trend towards emulation.

#ZOOM CUSTOMER

"Thanks to TopSolid'Cam we can represent virtually the growing complexity and functional diversity of today's production machinery, and obtain well-conceived, trouble-free post-processors for smooth-running program sequences on our machine tools."

Karl-Heinz Kragl, Head of Production, Lindauer Dornier GmbH
