

## A complete wood CAD/CAM solution with TopSolid'Wood 2011

- Powerful and parametric solid modeller
- Wood-specific functionalities
- Complete CAD/CAM integration
- High level of customisation
- Powerful interfaces
- Efficient document generation
- Same interface for wood, sheet metal, plastic...

# A complete wood CAD/CAM solution with TopSolid'Wood 2011

TopSolid'Wood is an integrated design, manufacturing and management software specialised for wood processing. It is a uniquely integrated CAD/CAM wood solution that meets the needs of designers, manufacturers and subcontractors in the wood working sector.

Discover here what's new in TopSolid'Wood 2011 as well as 2 new applications available for TopSolid'Wood customers: TopSolid'Planner and TopSolid'Quote to configure and estimate your projects.

## TopSolid'Wood 2011:

### More efficient functions

- > Automatic assembly
- > Assembly by non-linear propagation
- > Direct access to a new library of profiles
- > Improvements in component mechanisms

### Interface with Blum

- > Automatic and complete reconstruction of cabinets
- > Access to Blum 3D hardware models

### Improved parameters

- > List of predefined values
- > Boolean parameters

### Precise draft creation

- > Exception management by layers in the draft view
- > Exception management for sections
- > Multi-draft file name customization

## TopSolid'WoodCam 2011:

### Increased automation

- > Operations order management applied automatically for multi-machining
- > Multi-machining of several projects
- > Automatic customisation of 2nd position file name

### Improved operations and positioning

- > Evolved sawing operation
- > Optimized calibrating depending on the stock
- > Management of attachments on apertures
- > Simplified positioning of several parts on work-holding fixtures

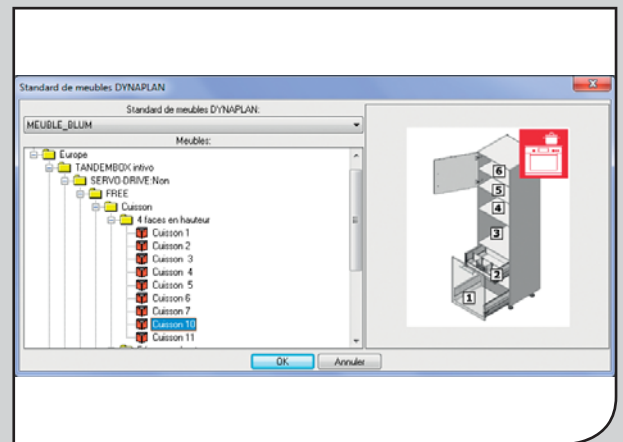

## News applications 2011:

### TopSolid'Planner:

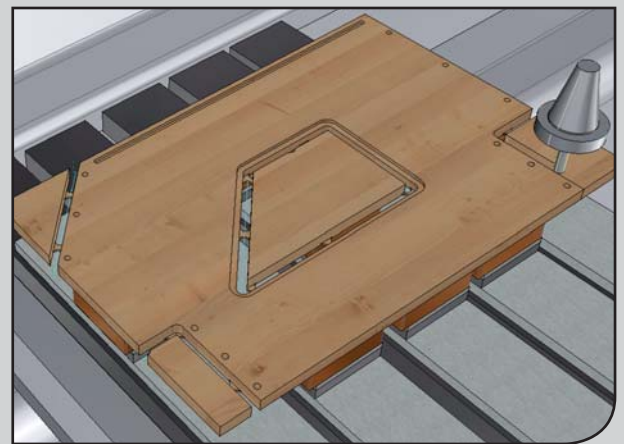

A real sales tool which enables you to create, present and generate quotations for your interior design projects

### TopSolid'Quote:

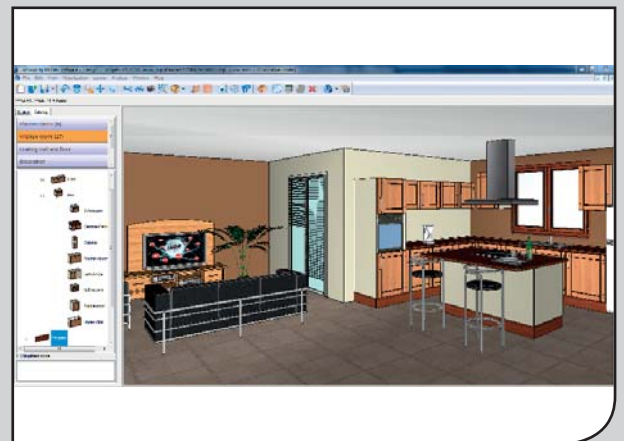

An estimate generation tool directly linked with TopSolid'Wood

A new interface with Dynaplan from Blum.

Calibration optimization.

Interior design with TopSolid'Planner.
