TopSolid'Cam

TopSolid's strong points to drive Huron machines

- Topological recognition
- Identification of individual shapes to subsequently propose the best machining methods
- Collision control
- Features recognition
- Advanced 5 axis positioned machining
- 3D machining
- Facilitated 5 axis continuous machining
- Machine and part simulation

TopSolid'Cam and Huron A proven CAD/CAM solution for your Huron machines

- Important time and productivity gains for customers
- Work with the worldwide machining leaders
