

# TopSolid

Wood

## A complete wood CAD/CAM solution with TopSolid'Wood 2012

- Powerful and parametric solid modeller
- Wood-specific functionalities
- Complete CAD/CAM integration
- High level of customisation
- Powerful interfaces
- Efficient document generation
- Same interface for wood, sheet metal, plastic...

MASTER YOUR  
MANUFACTURING PROCESS

# A complete wood CAD/CAM solution with TopSolid'Wood 2012

TopSolid'Wood is an integrated design, manufacturing and management software specialised for wood processing. It is a uniquely integrated CAD/CAM wood solution that meets the needs of designers, manufacturers and subcontractors in the wood working sector.

Discover here what's new in the integrated CAD/CAM TopSolid'Wood 2012 solution.

## TopSolid'Wood 2012:

### Improved part and panel definition

- > A definition of multiple parts for better information management
- > More efficient panels thanks to detailed and simplified representations

### New functions for your components

- > Easily design and assemble components (shelves, drawers, doors ...) with the new driver block
- > Easily change assemblies with the driver panel
- > Optimize assembly size with new tools

### More efficient design functions

- > Split interior design projects with the new workspace function
- > Simplify your design with joint assembly

### More precise draft generation

- > Optimize draft generation with schematic component projection
- > Improve draft reading with new dimension options

## TopSolid'WoodCam 2012:

### Improved functions for increased efficiency

- > More user-friendly interface
- > Breaking edges option in contouring operation
- > Automated machining of sloped faces as defined by CAD
- > Customized sorting of machining operations
- > Optimized multi-drilling machining

## TopSolid'Planner 2012:

### A sales tool adapted ergonomically

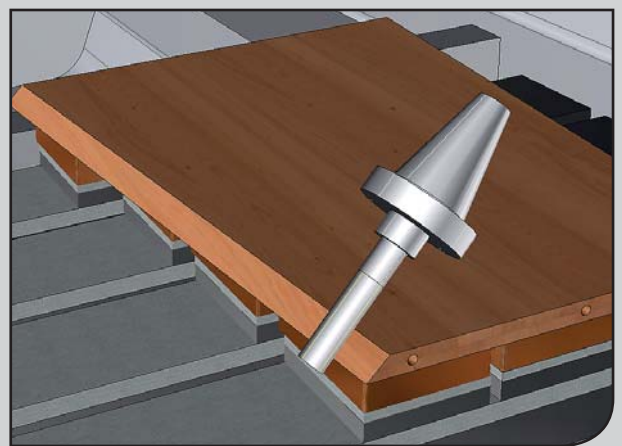

- > New options for wall visualization
- > More practical project navigation
- > High performance realistic rendering
- > Advanced research tool for quotations

### A powerful link between sales and technical teams

- > Improved components parameters
- > Advanced project modification (replace, reposition, apply tools...)
- > Reinforced library customization

Interior restaurant design with TopSolid'Wood

Machine sloped faces with TopSolid'WoodCam

Kitchen design with TopSolid'Wood.
